

FX-4 Stereo Microscope

This microscope has some unique advantages:

Longer Focal Length, Completely adjustable stand for all situations, Larger Field of View, Superior distortion free vision, Greater Depth of Field (up to 3/16" at 10X)

Stand: Material aluminum with round plastic & white plate base 7" long x 5.5" wide x 6" high.

Body: Rack & Pinion focusing arrangement & adjustable to 6" height above the base plate.

Binocular Tube: Inclined at 45 Degree with diopter adjustment and variable adjustment for inter-pupillary distance.

Eyepieces: Super Wide Field, 10X are standard, optional are 20X purchased as extras, all are color coated achromatic.

Objectives: Standard with the microscope is a 2X internal, .5X, 1.5X and 2X supplemental objectives can be purchased as extras, all are color coated achromatic.

Magnification: 6 different magnifications possible with the purchase of 1 extra set of eyepieces and 3 objectives.

Image: Right side up - Optically correct.

The improved Stereo effect of this microscope with an increased Depth of Field produces revealing three dimensional views with the FX-4 Stereo Microscope.

Ideal for inspection, research, assembly, electronic components manufacturing, micro-welding, burring, printed circuits inspection, wire inspection, Botany, textiles, inspection, etc.
